

# The United Slate

I would like to find and support a slate of candidates for the 2018 California elections, and also to find someone to run a ballot initiative focused on affordable housing in the state. A team of aligned people has a chance to make a real change.

I believe in creating prosperity through technology, economic fairness, and maintaining personal liberty.

We are in the middle of a massive technological shift—the automation revolution will be as big as the agricultural revolution or the industrial revolution. We need to figure out a new social contract, and to ensure that everyone benefits from the coming changes.

Today, we have massive wealth inequality, little economic growth, a system that works for people born lucky, and a cost of living that is spiraling out of control. What we've been trying for the past few decades hasn't been working—I think it's time to consider some new ideas.

More information about the principles and policies I believe in is at the link below.
